Photographic Imaging Services

Kentucky Gateway Museum Center imaging services provides photographic reproductions of items in the KGMC's collections upon request. Only material which will not be physically damaged by the process of duplication will be copied. The Museum reserves the right to withhold permission for the reproduction of any material involving unusual difficulty or great risk to the original. All requests for photo or digital reproduction will be handled in the order in which they are received, regardless of contact method used. Turnaround time depends upon complexity of the order, the need for custom photography, and special workload. Allow a minimum of three weeks after payment has been received for completion of most orders. Special orders requiring custom photography setup, custom output specification, or rush turnaround of less than 7 working days may be available at extra cost. All uses require credit to the **Kentucky Gateway Museum Center, Maysville, Kentucky.**

The Museum Center encourages the use of its collections, particularly for research and educational use.
